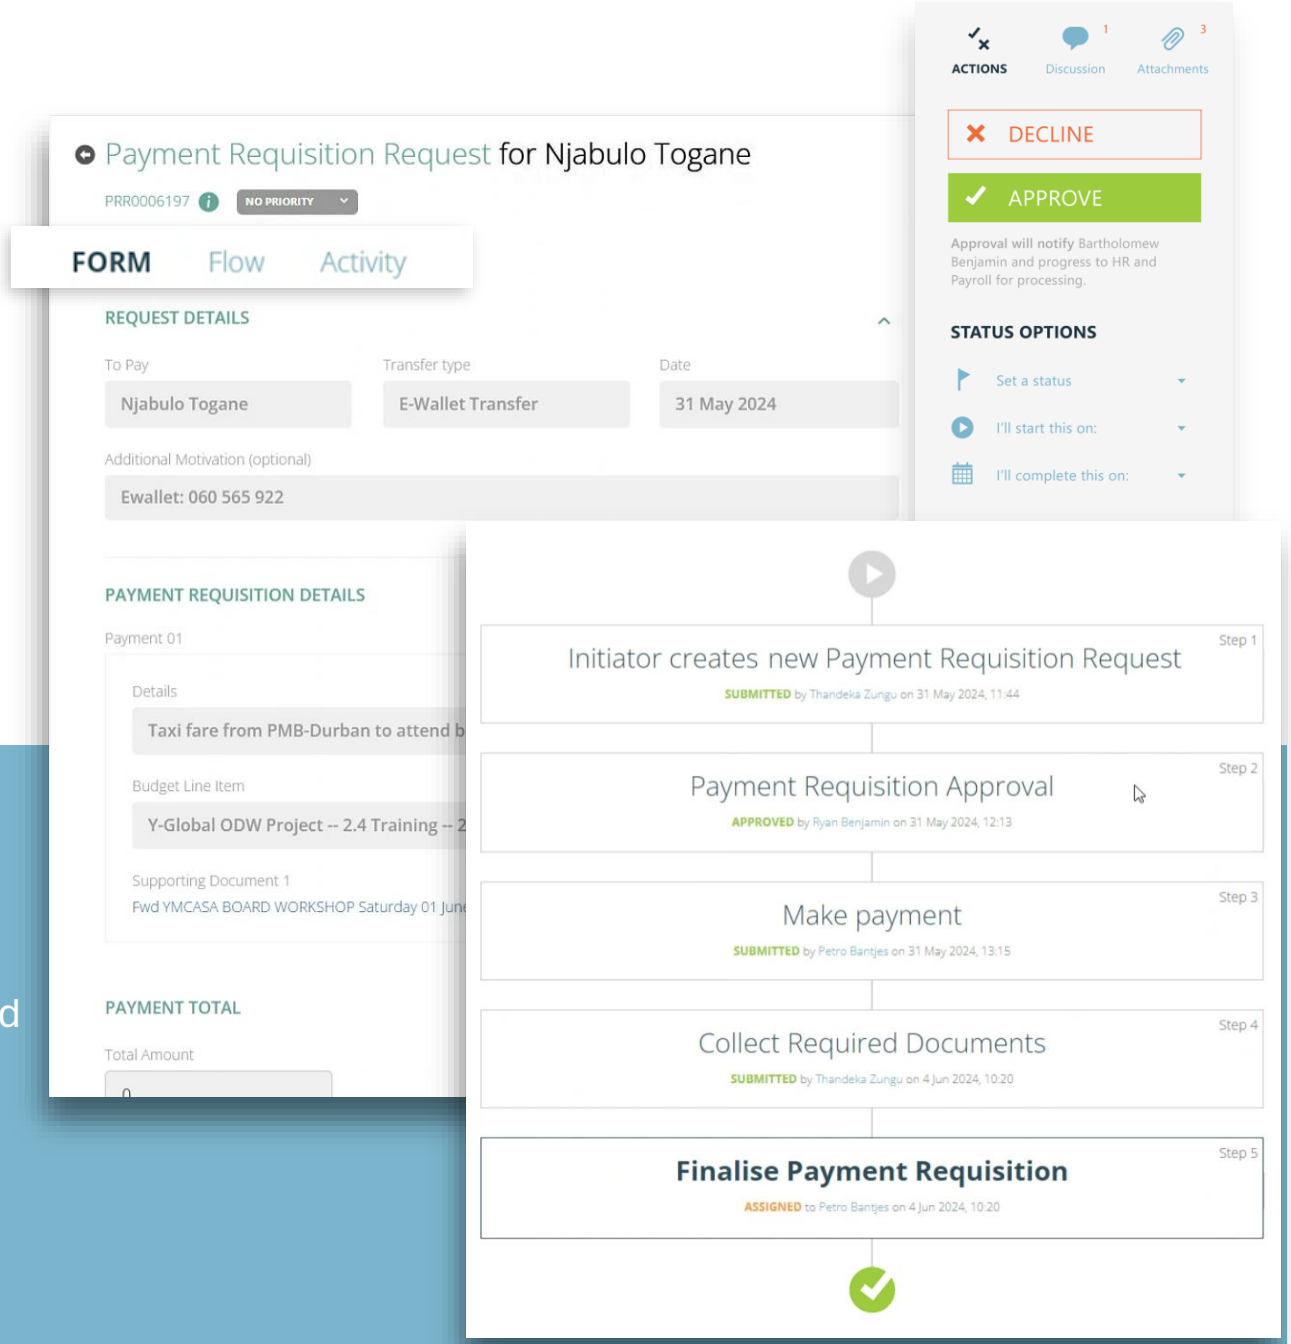
Addressing Key Challenges with Automation

YMCA OPERATIONAL CHALLENGES:

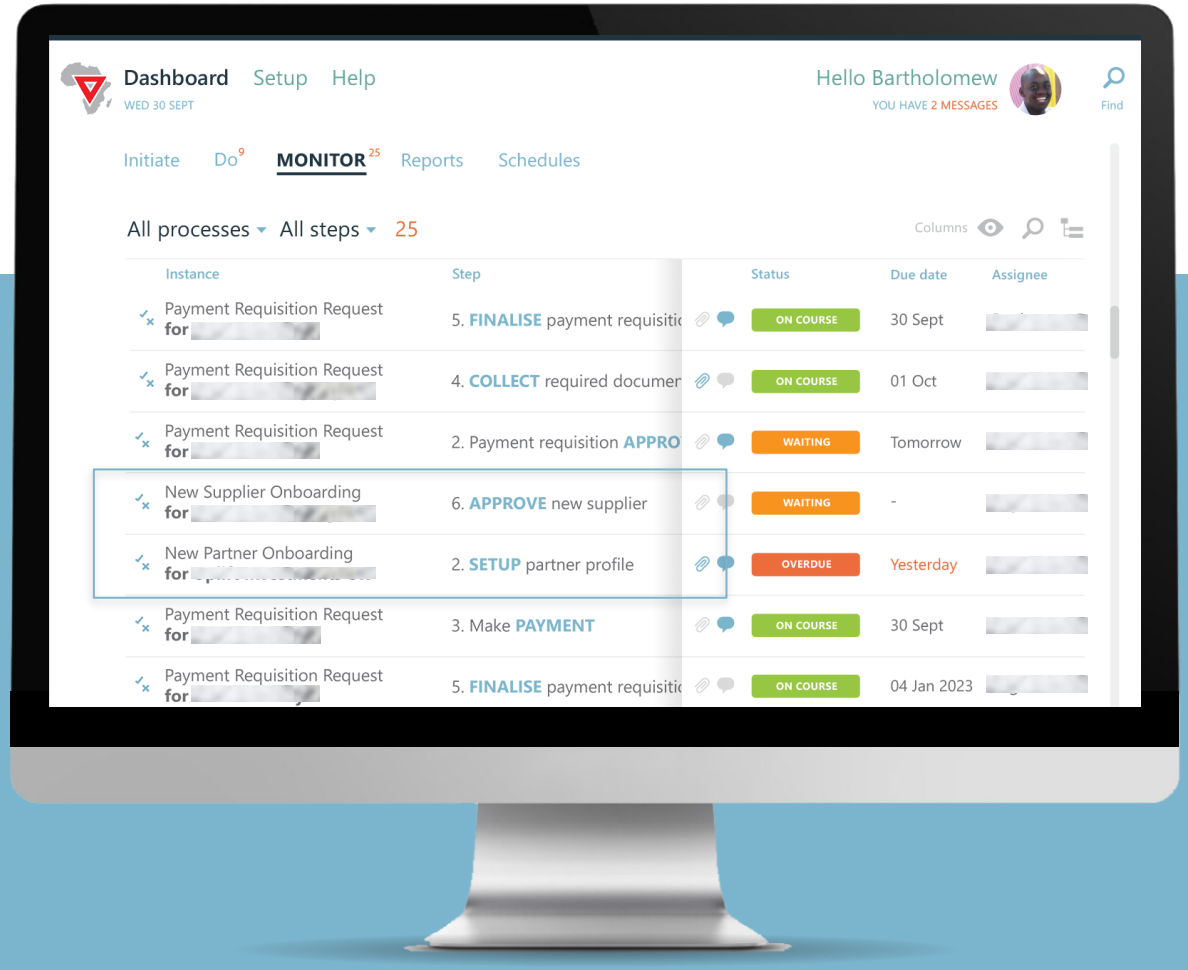
- Manual funding management and reporting
- Rural staff with limited computer access
- Delays and lack of approval processes
- Document retrieval difficulties for audits

WORKFLOW SOLUTION:

- **Smart digital forms** with data validation and checks
- Streamlined, **rule-driven approval process** - cloud-based (mobile friendly)
- **Automated progression** and task-reminder notifications
- Rapid Reports and fully transparent, accountable and **auditable built-in activity logs**



Tangible Benefits for YMCA South Africa



OPERATIONAL IMPROVEMENTS:

- **Reduced approval times from days to hours**
- Minimized errors and enhanced data integrity
- Increased transparency with real-time visibility
- **Reduced audit time by 40%, with fewer audit findings**

POSITIVE IMPACT:

- Higher financial **accountability**, reduced errors, increased **efficiency**
- **Positive impact on partnership with funders**
- Simplified processes, less need for manual interventions
- Alleviated administrative stress

" SA-YMCA started using Autopilot in 2018 and it was the best decision we've made. ***It has cut the time spent with auditors by at least 30-40%.*** *(Autopilot) has proven that the* ***financial accountability has increased****, and this has increased the integrity of the organization with our international funders "*
